*What I know of
friendly winds
I've learned from being
on the sea
sailing no place
going with the wind
making every harbor
home.*

-- Rod McKuen

*My people are gray,
pigeon gray, dawn gray, storm gray.
I call them beautiful,
and I wonder where they are going.*

-- Carl Sandburg

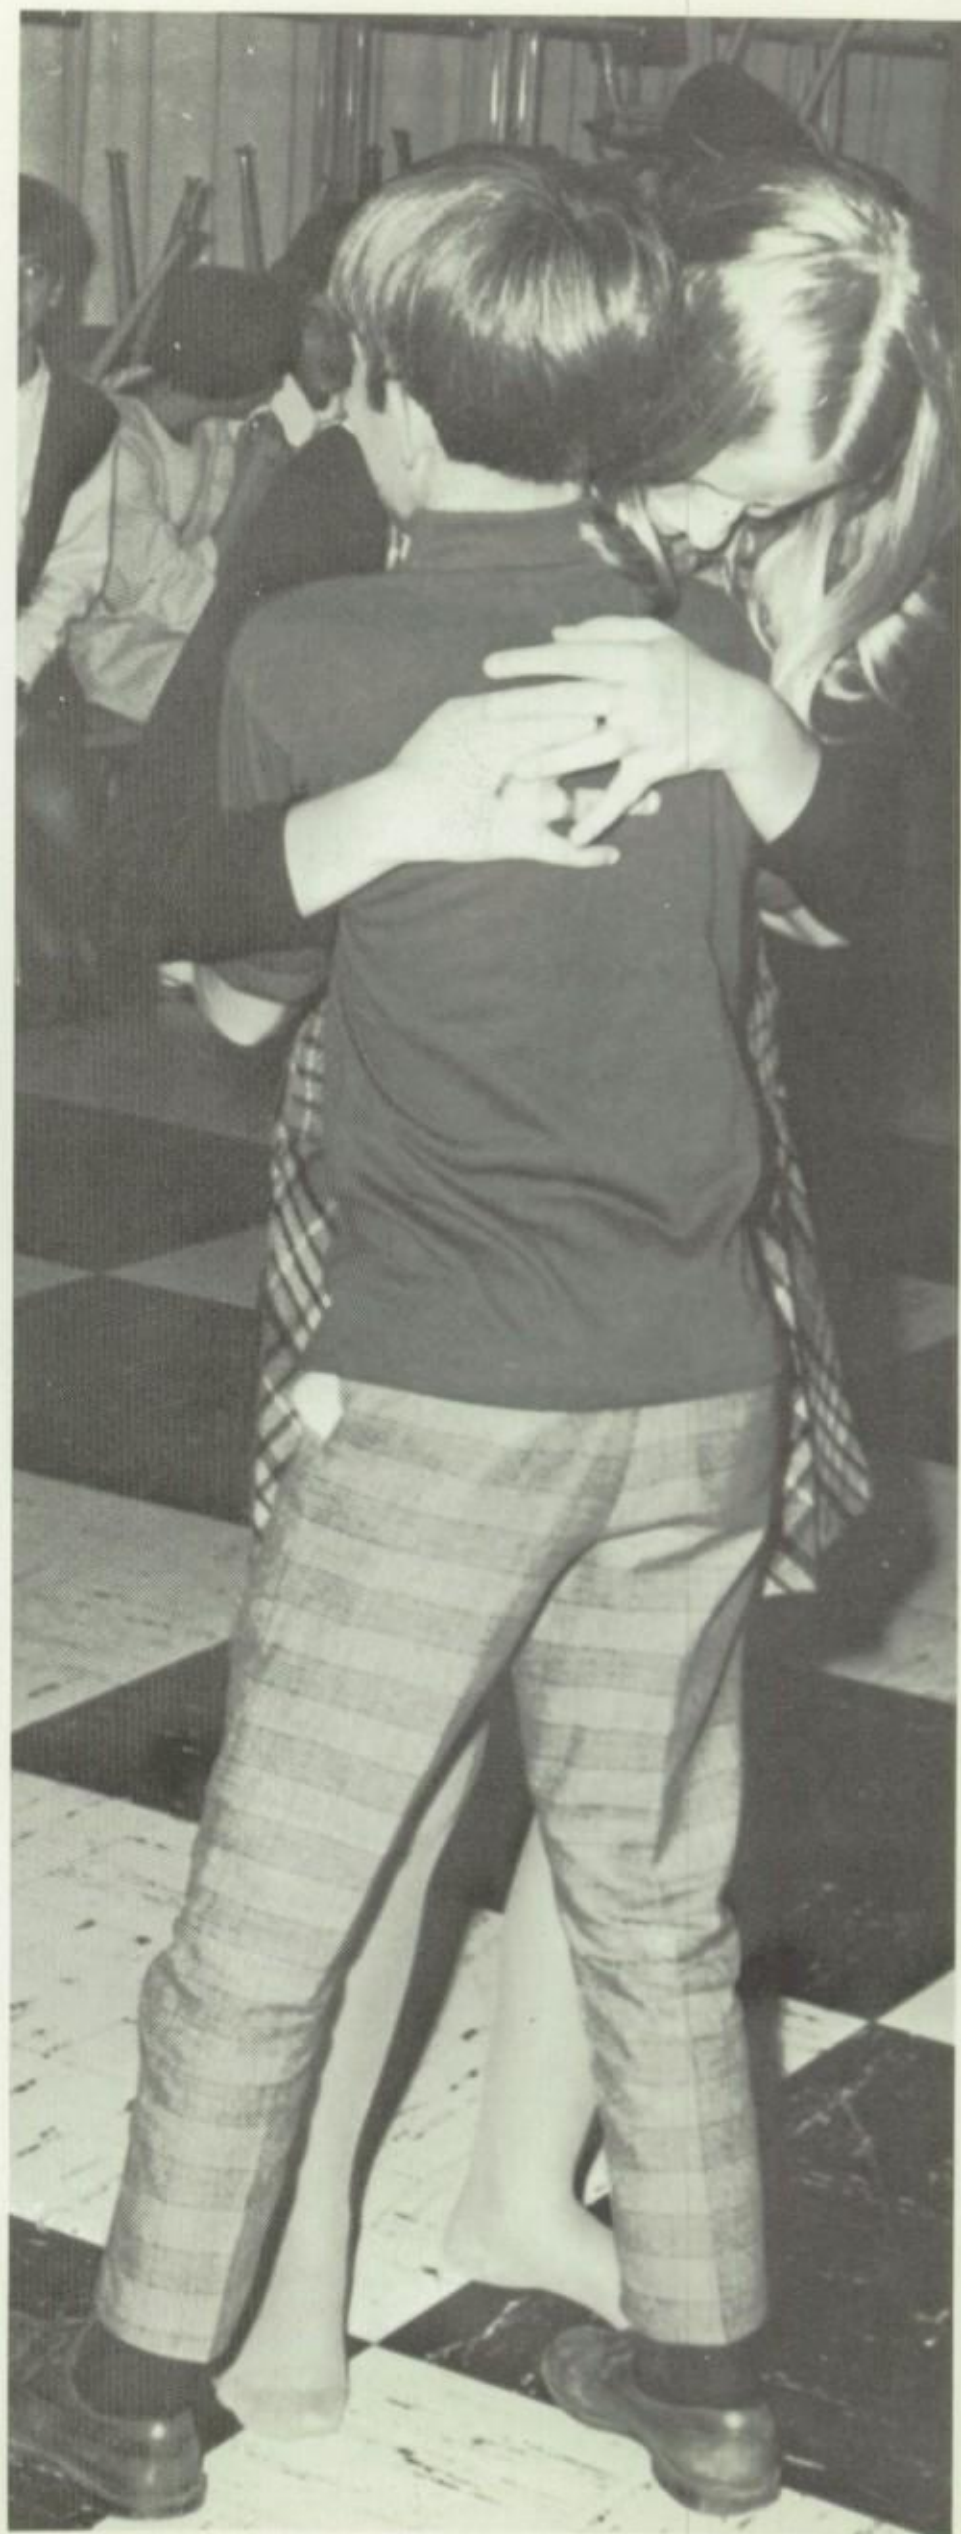

*The world is a beautiful place
to be born into
if you don't mind happiness
not always being
so very much fun*

-- Lawrence Ferlinghetti

Seniors Soon Separate Into

A Senior's year is filled with anxieties, pleasures, disappointments . . . wearing sandals all year . . . just about meeting yearbook deadlines . . . producing the Senior Class Play . . . going on the Senior Class Trip to Washington, D.C. . . . living in the art room eight periods a day and having art twice a day . . . filling out college application after application . . . college boards . . . tests, tests, and more tests . . . discovering that your typing paper is due today . . . going to the Junior-Senior Prom that you didn't go to last year . . . ordering announcements . . .

The Many Careers Of Life.

taking class pictures . . . college interviews . . . being chosen Homecoming Queen and Attendants . . . and May Queen . . . going to the Tinsel Ball with your favorite guy . . . competing in the Miss Teenage Brockway Pageant and being crowned Miss Teenage Brockway, 1970 . . . and most of all preparing for graduation, that final day that we have worked up to for twelve years . . . when we walk on that stage and receive our diploma and say farewell to our . . . ALMA MATER.

The date was July 20, 1969 — the historical moment when
man from planet Earth reached the first stepping
stone in his exploration of space. In a spectacular
climax to its Apollo space program, the United States
had landed two astronauts on the surface of the Moon.

**“one small step for man.
one giant leap
for mankind.”** —Neil Armstrong

1/ Flight crew of *Apollo 11*: Commander Neil A. Armstrong, Command Module Pilot Michael Collins, Lunar Module Pilot Edwin E. Aldrin Jr.

2/ Neil Armstrong waves as the astronauts board a van that will take them to the launch complex.

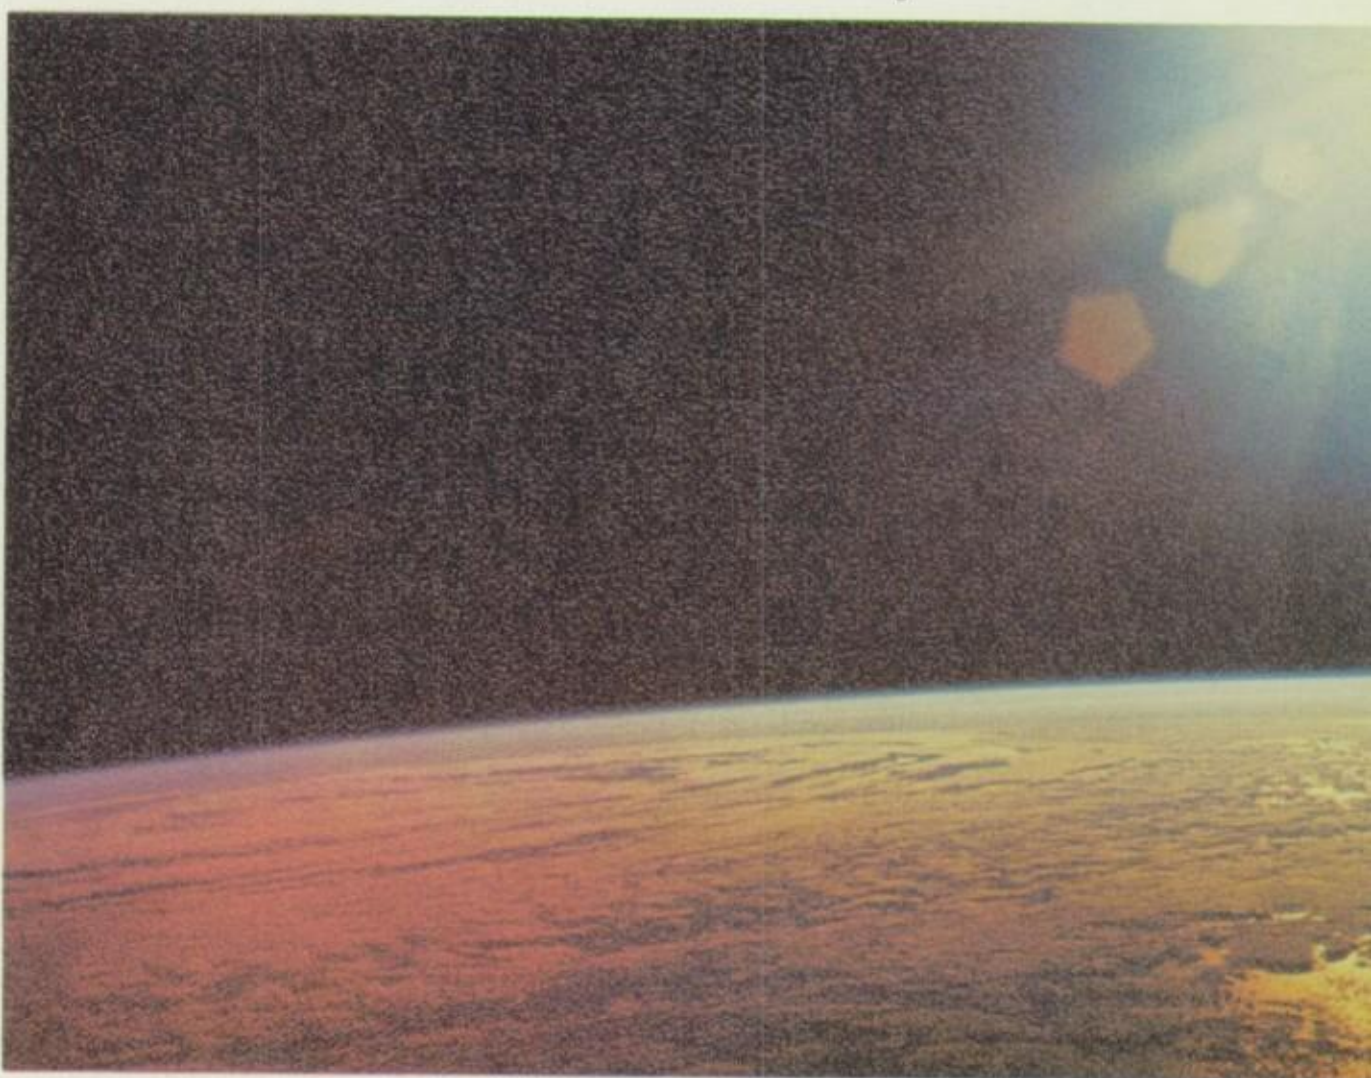

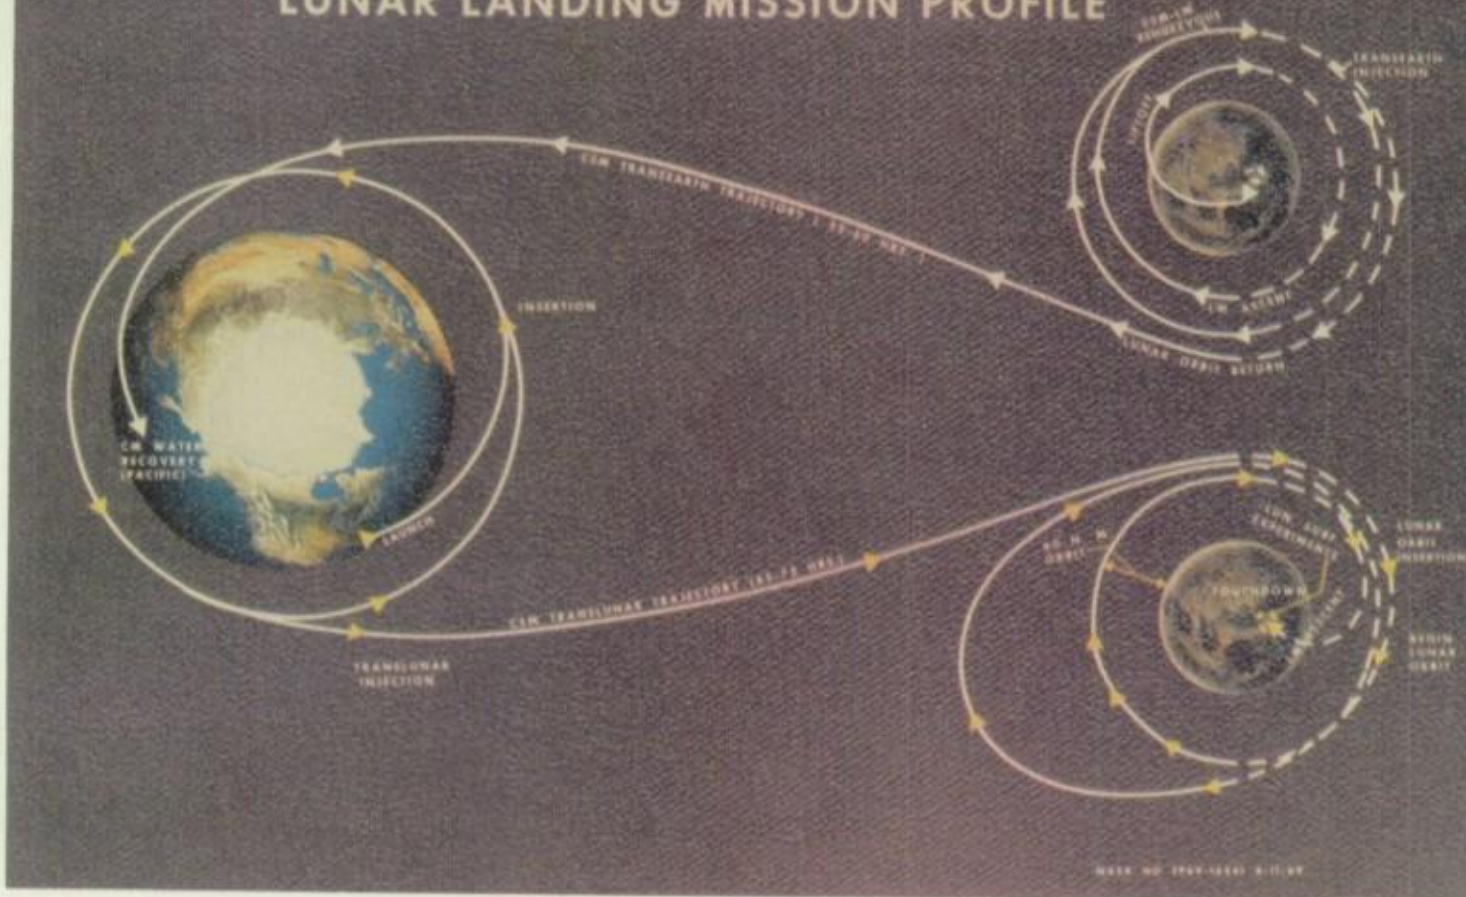

3/ Lift-off! The *Apollo/Saturn V* spacecraft is on its way at 9:32 EDT the morning of July 16, 1969. A half-million spectators watched from the perimeter of Cape Kennedy Launch Complex 39A.

4/ Flight Plan: Leave Earth Wednesday morning, July 16. Arrive in lunar orbit Saturday. Touchdown and walk on Moon Sunday. Leave Monday for return flight. Splashdown Thursday in Pacific Ocean.

3

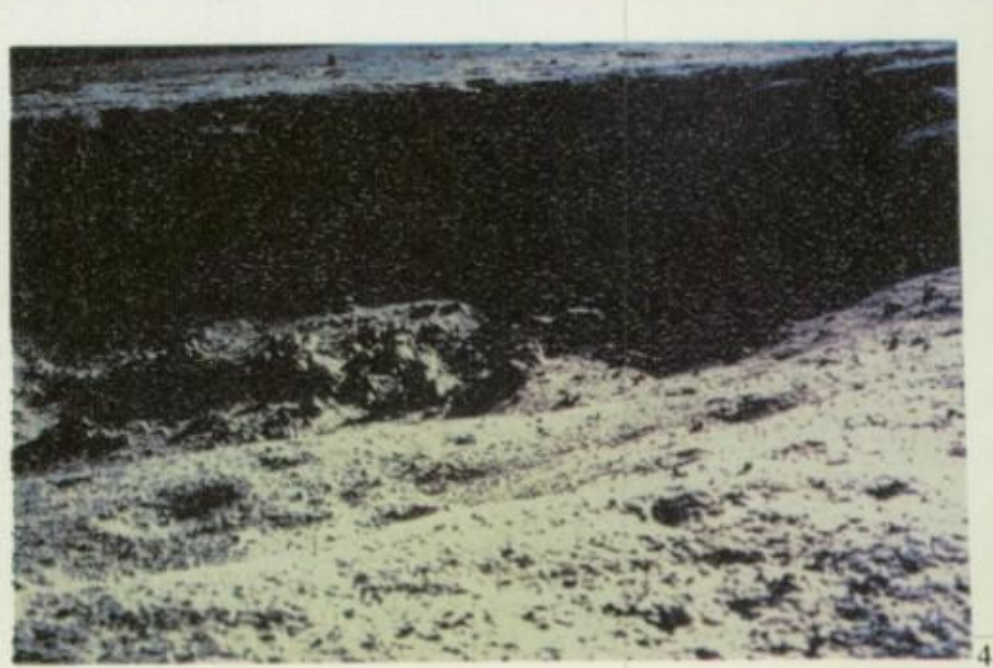

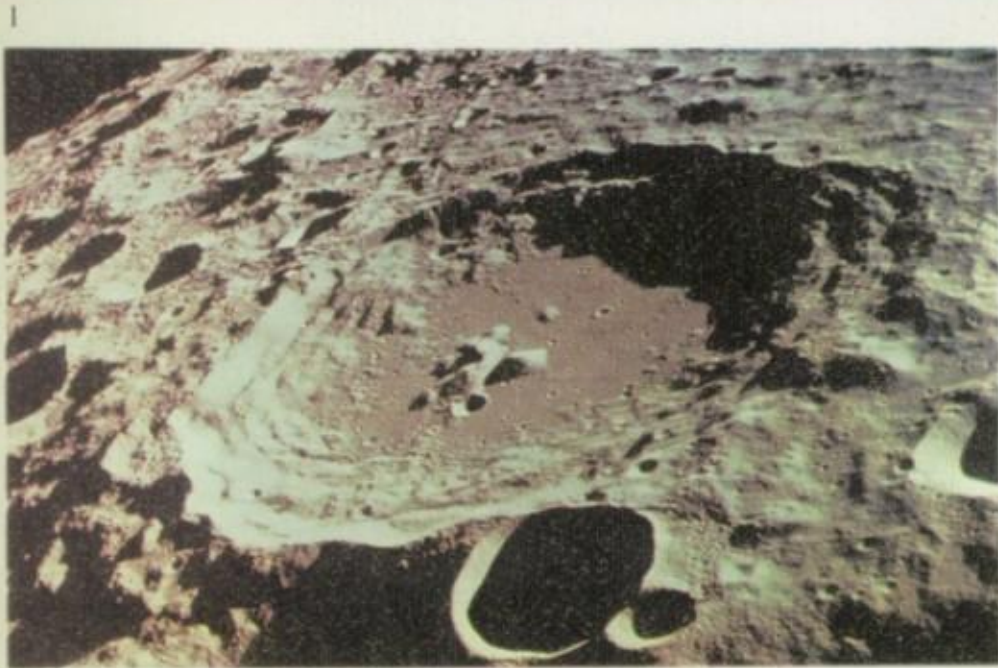

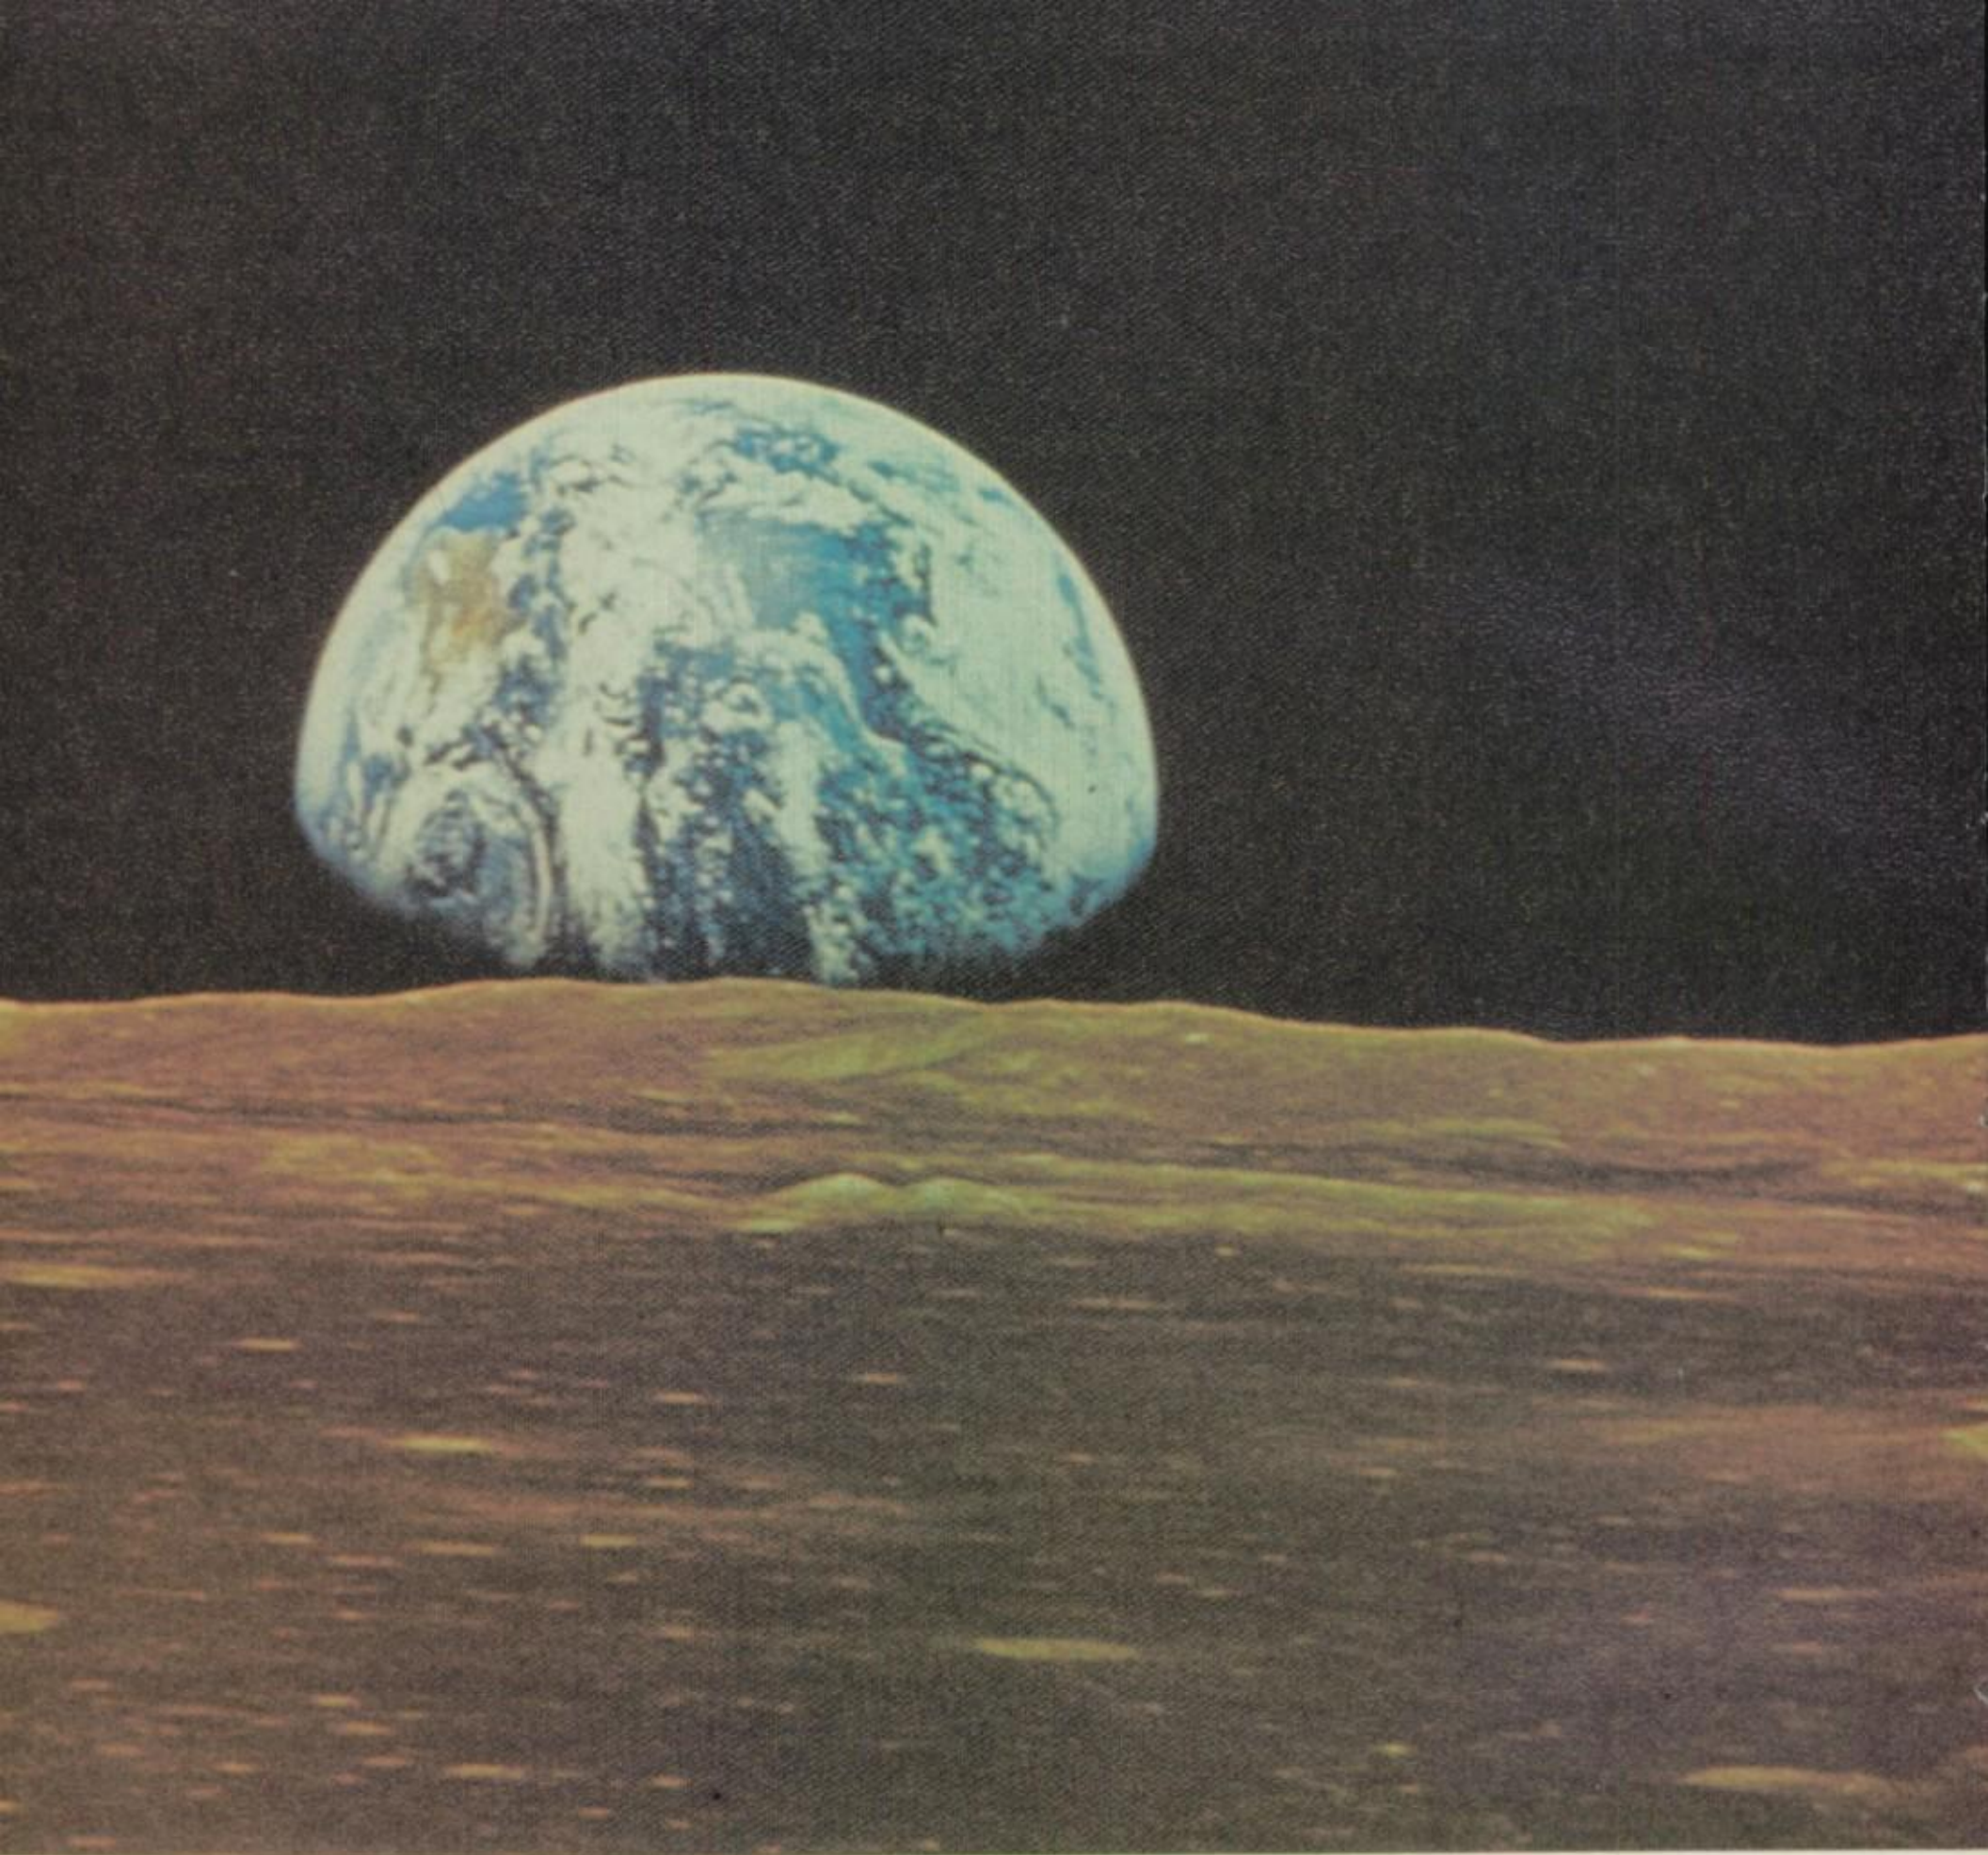

APOLLO LUNAR LANDING MISSION PROFILE

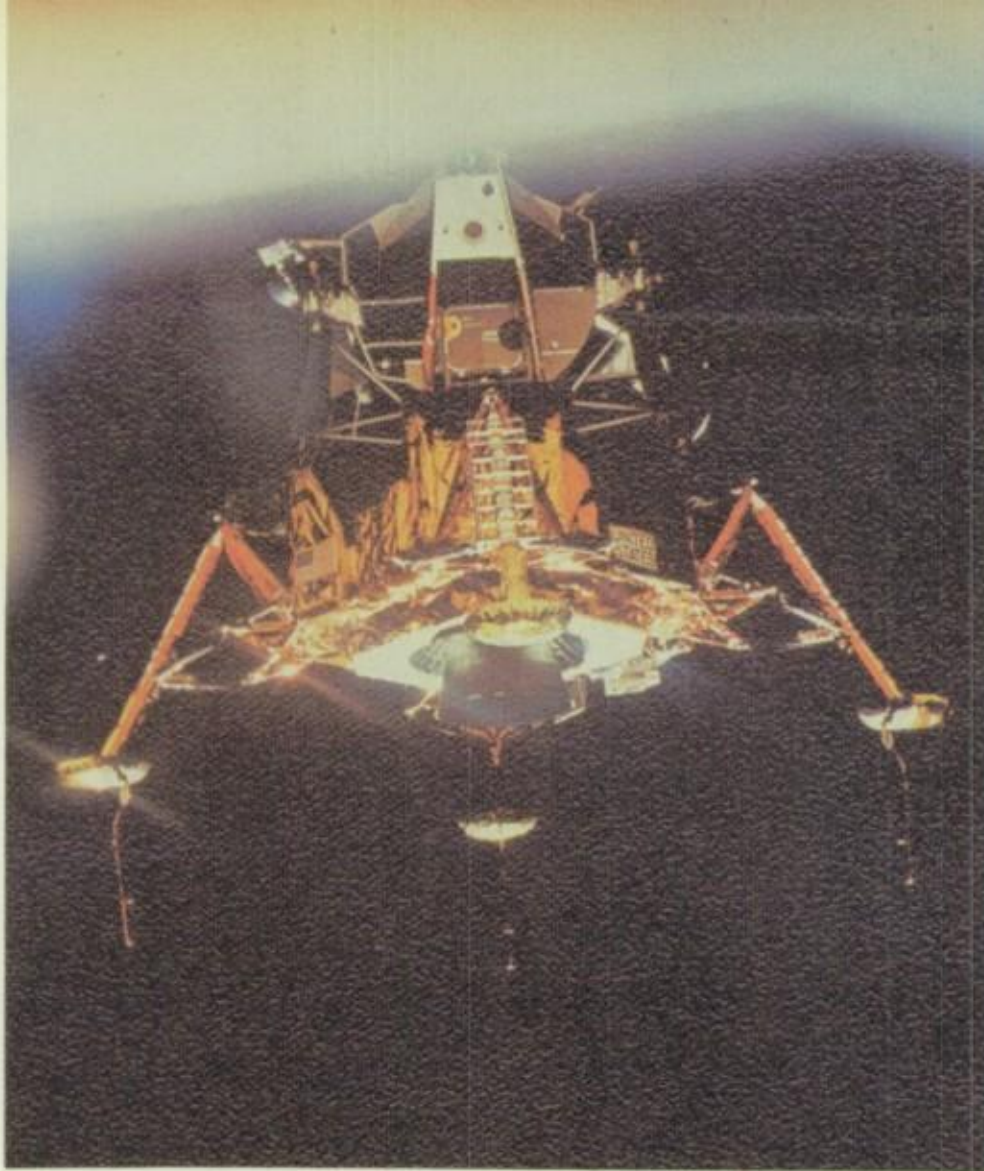

5/ The 363-foot high space vehicle generates a thrust of 7½ million pounds at lift-off.

6/ *Apollo 11* thunders toward orbit. In 2½ minutes, the craft was 38/55 miles high and downrange.

7/ Sunflare in camera lens seems to brighten the dark sky as *Apollo 11* orbits the Earth before translunar injection.

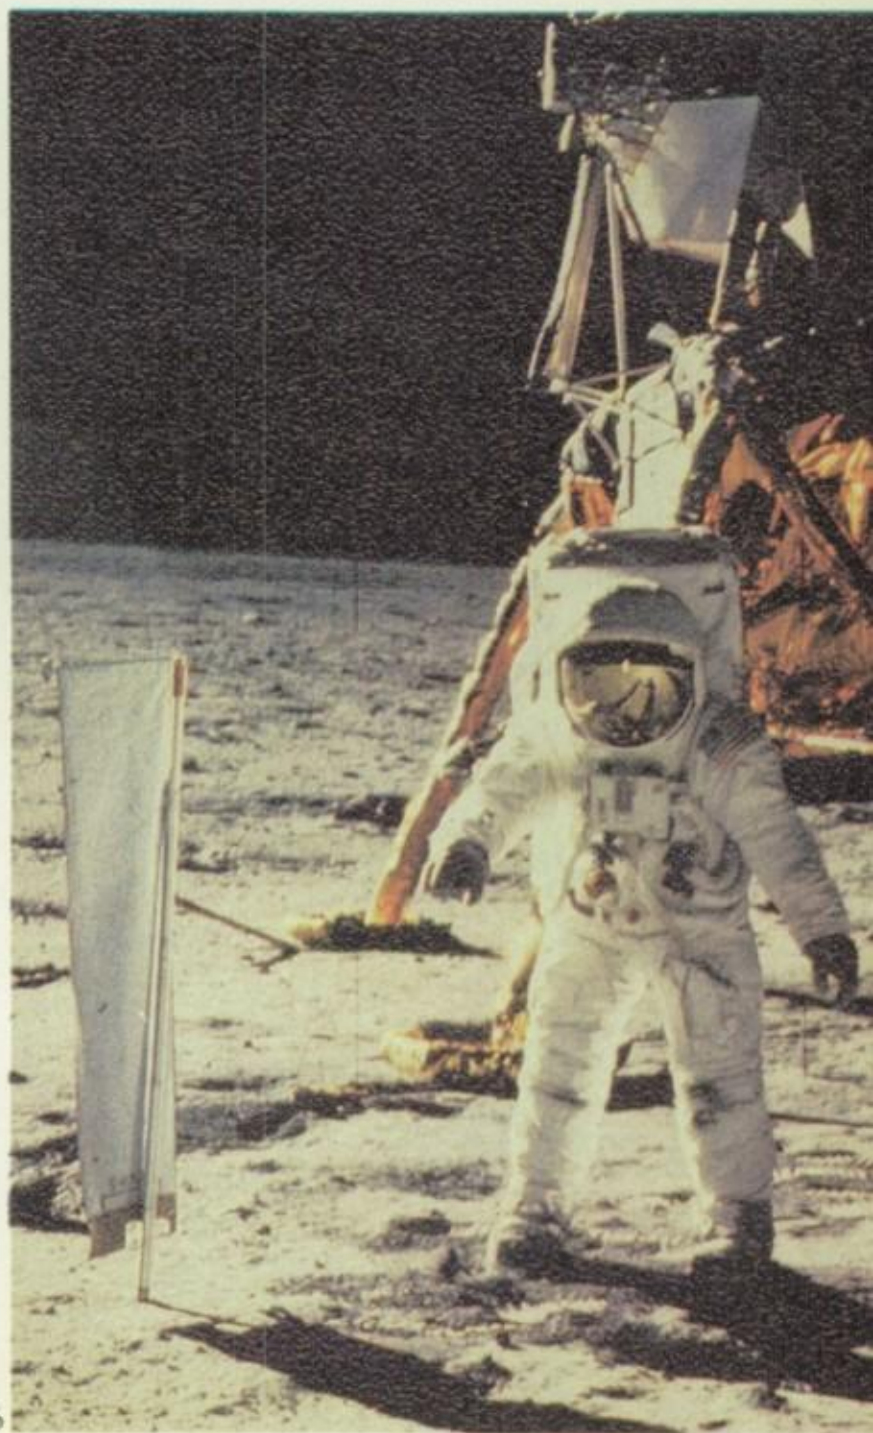

2

5

6

1/ The rising Earth greets *Apollo 11* as the astronauts come from behind the Moon after lunar insertion burn.

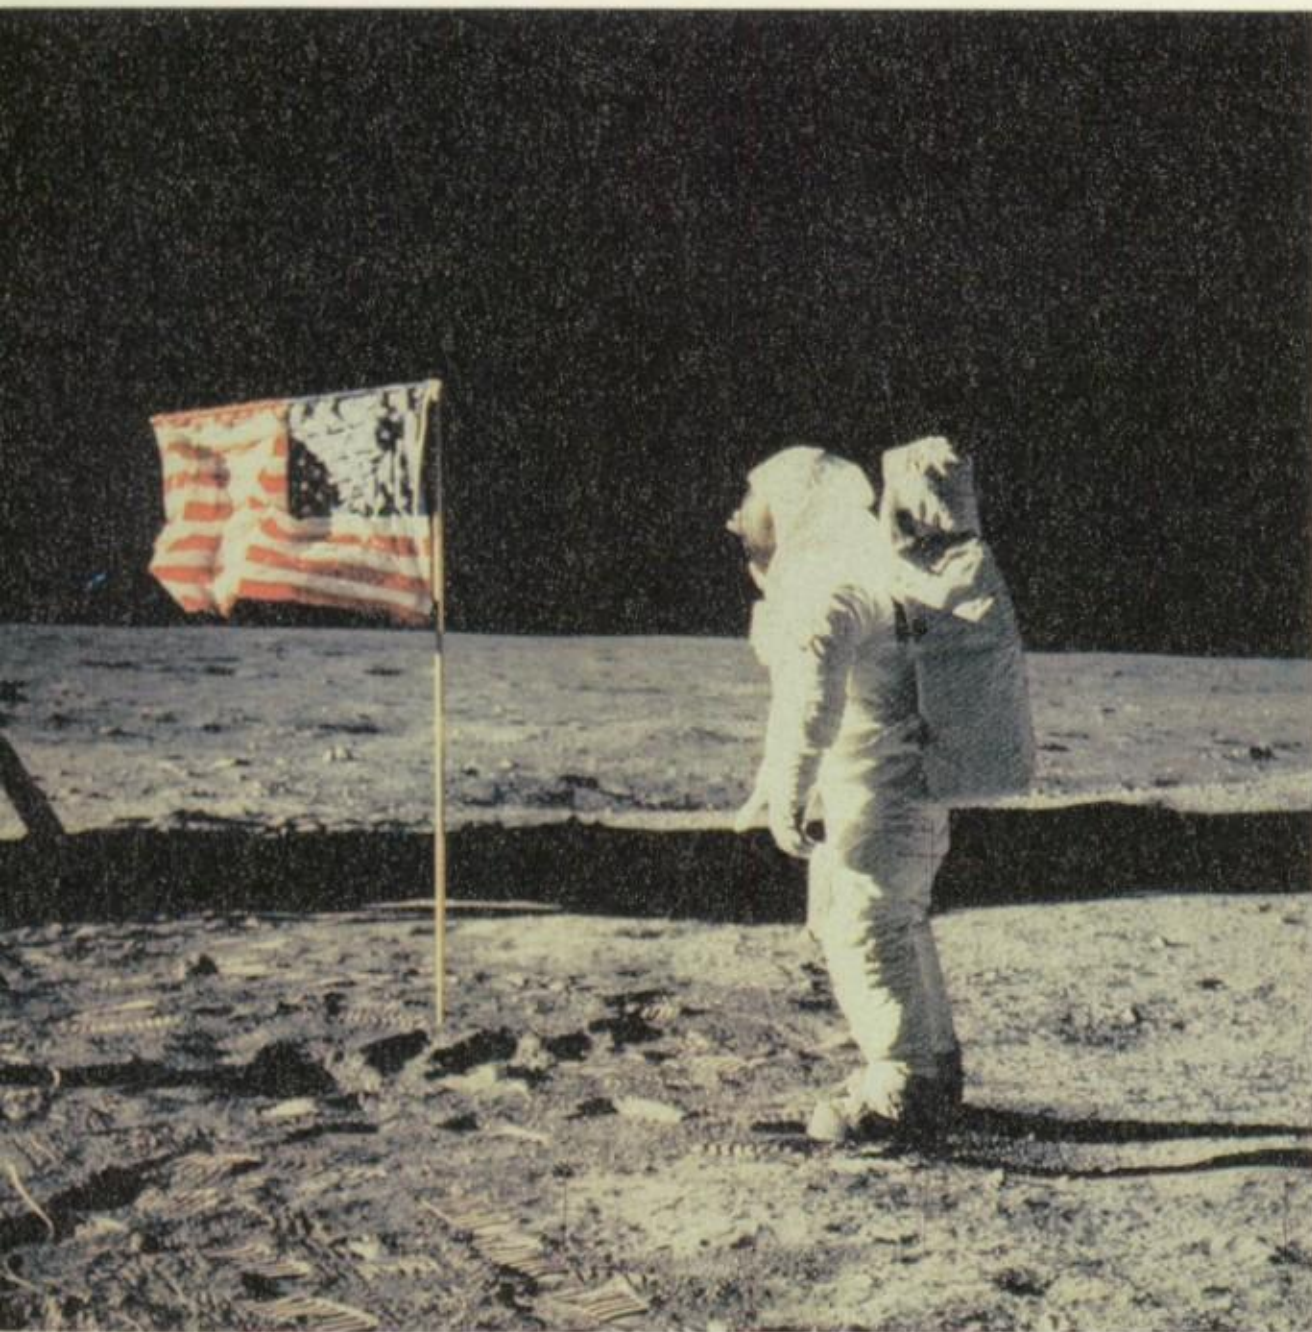

2/ Astronaut Collins took this picture from the command module *Columbia* as *Eagle* separated for descent to the Moon with Armstrong and Aldrin aboard.

3/ Large central crater is identified as International Astronomical Union 308, on the far side of the Moon.

4/ Crater and terrain features photographed near the landing site on the Sea of Tranquility.

5/ Aldrin descends ladder of the LM to join Armstrong for a walk on the Moon. Here their weight was only a sixth of what it is on Earth.

6/ Television viewers on Earth were enthralled as the astronauts went through a checklist of lunar chores. Armstrong and Aldrin spent 22 hours on the Moon, including 2½ hours outside the LM.

3

4

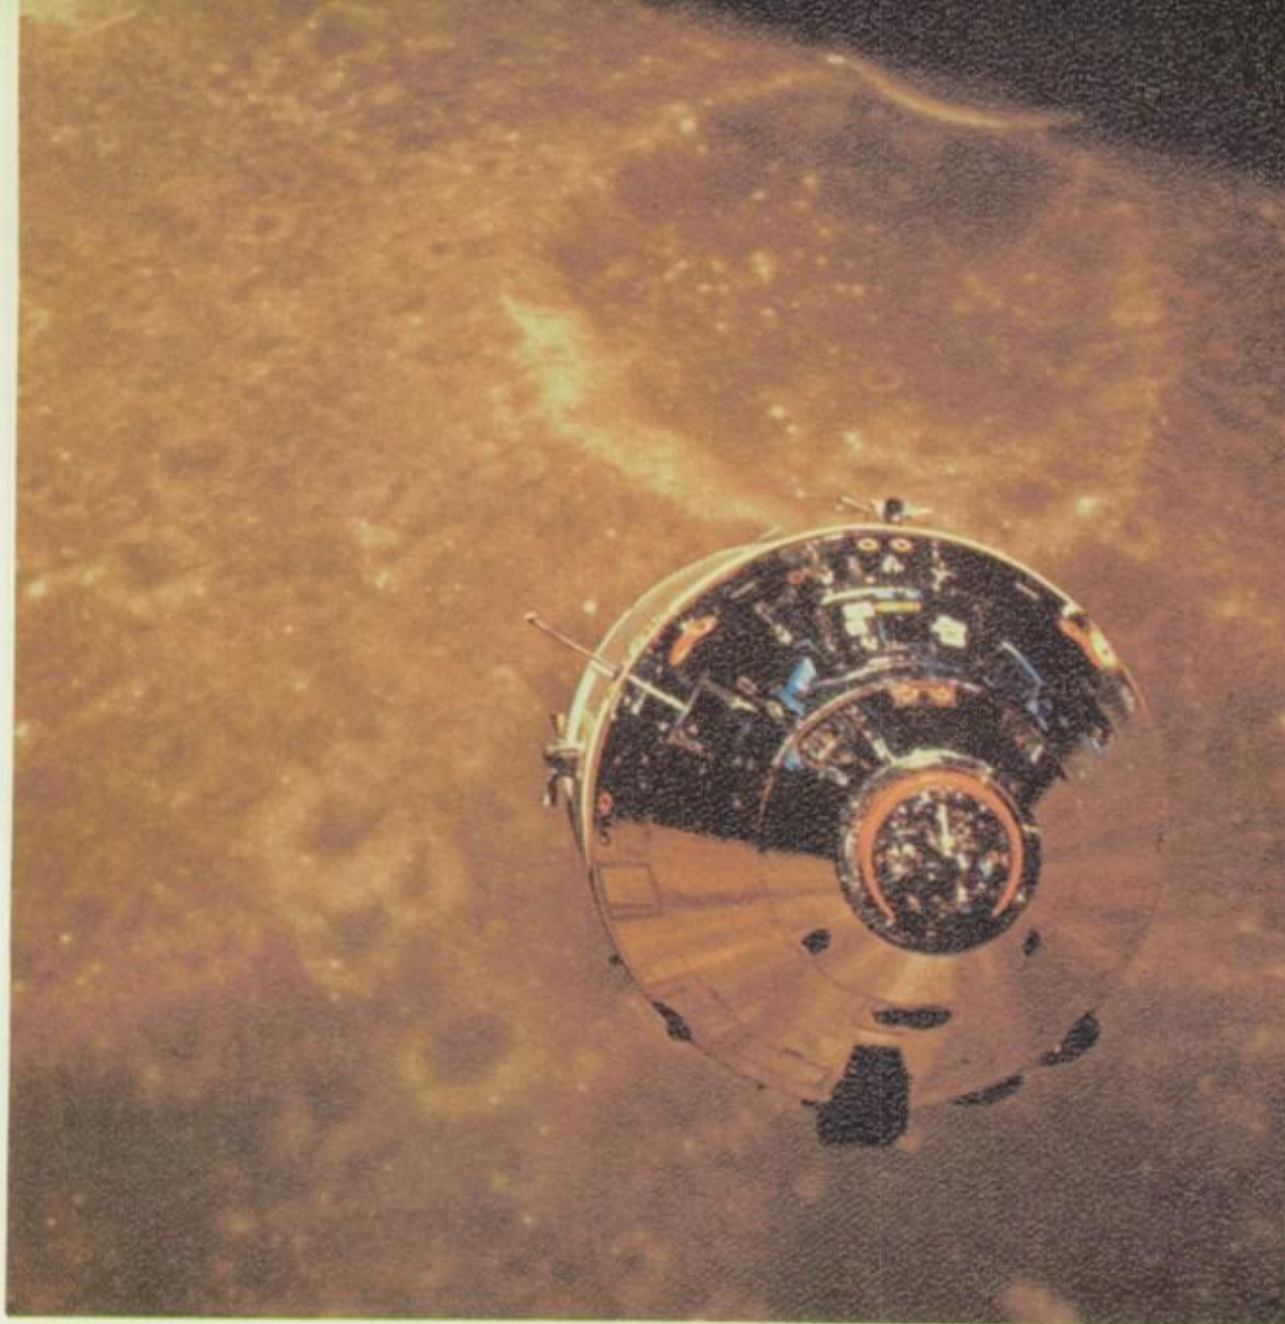

5

1/ Salute to the American Flag by Edwin Aldrin. Because there is no atmosphere, the flag is unfurled by an L-staff.

2-3/ Now there are footprints in the powdery crust where no man ever had walked before.

4/ Close-up of a 3-inch area of the surface shows a clump of lunar powder and shiny spherical particles.

5/ Devices will transmit data on seismic activity and solar winds. A laser reflector has given scientists the first accurate distance to the Moon.

7

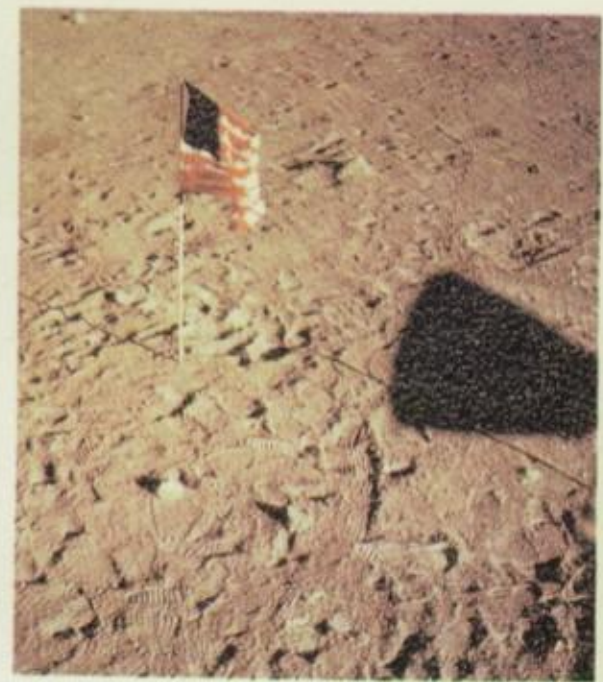

8

6/ A look back as the astronauts lift off from the Moon aboard *Eagle* to rendezvous with the command module.

7-8/ Inside the command module *Columbia*, Astronaut Michael Collins prepares to dock with *Eagle*. After Armstrong and Aldrin are aboard, the LM is jettisoned and transearth injection is made for the return voyage.

9/ Ablative material burns from *Apollo 11* as it plunges back into the Earth's atmosphere over the Pacific Ocean.

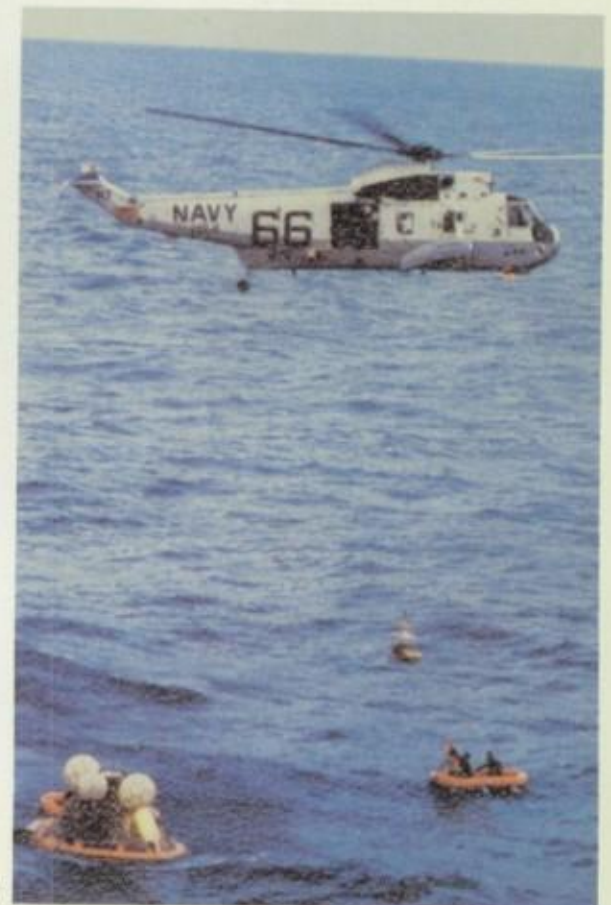

10/ A recovery helicopter hovers to pick up the astronauts. Splashdown was July 24.

6

9

10

2

- 1/ President Richard Nixon and the astronauts in their quarantine capsule listen to prayer by the *USS Hornet* chaplain.
- 2/ New York showers welcome to the three astronauts in what was the city's largest parade in history.

... A journey of a thousand miles begins with one step.
